

A vibrant photograph of a waterfall in a forest. The water is captured in a long-exposure style, creating a soft, white, misty effect as it cascades over dark, moss-covered rocks. The surrounding environment is rich with green moss and ferns. A large, weathered log lies horizontally across the middle ground, partially submerged in the water. The overall scene is serene and natural.

2nd Peter 03:12 Looking for and
hasting unto the coming of the day
of God, wherein the heavens being
on fire shall be dissolved, and the
elements shall melt with fervent
heat?
